

# Can You See What I'm Wearing?

Astics™ ClearWire Technology is Now Available for Hawley, Wrap Around and Spring Retainers

NorthStar's ASTICS™ allows patients undergoing orthodontic treatment an "invisible" retainer without foregoing the performance of a traditional acrylic-metal design. The superior aesthetics make it a valuable tool to increase patient compliance and satisfaction.

Upgrade the bow of any standard retainer to an Astics™ ClearWire for an additional \$24.00!

*The Choice is Clear!*
